

GAIN NO ADVANTAGE BY HARD FIGHTING

GREEKS CONTINUE THEIR DESPERATE RESISTANCE.

Severe Fighting between King George's Soldiers and the Ottoman Troops—Turkish Fleet Declared to Be Worthless—Volunteers for Greece—Late Conference at Athens.

London, April 23.—The war news received from the special correspondents of the London morning papers for publication is meager and somewhat conflicting. The only certainty seems to be that Tyrnavo has not yet fallen, but Nezeros is in the hands of the Turks. The Chronicle's Athens correspondent says that the Greeks have retreated from Mati.

According to the Times correspondent at Athens the result of the fight.

GENERAL SMOLENTZ, Greek Commander.

ing, which was raging furiously at Mati Wednesday, would decide the fate of Larissa, and if the Turks capture Mati Tyrnavo must fall.

A telegram from Larissa, dated 5 o'clock Thursday evening, says that 10,000 Turks are engaged, and that Crown Prince Constantine has arrived on the scene of action. The Greeks are maintaining their positions.

All the dispatches from Athens admit that the situation is extremely grave. Fighting appears to be going on along the whole frontier line. It is rumored there that the king will start for Larissa on Monday next.

The western division of the Greek fleet has sailed from Leucas for the coast of Epirus, with the design of fomenting a revolt among the Albanians.

It is said that Hefe Pasha will resign the command of the Turkish fleet if it is ordered to leave the Dardanelles. He is said to have declared the vessels "quite unfit for active operations."

The Athens correspondent of the Daily Chronicle says: "I learn on good authority that the powers are already assuming that Turkey will be victorious, and are discussing ways and means of settling matters after the war is ended. One dictatorial power proposes that the Greek dominion shall be curtailed, the said power retaining one district as a bond for the payment of the Greek debt to it."

A dispatch to the Daily Chronicle from Athens says that the Greeks have held their position and destroyed the Turkish cavalry at Mati. German officers were seen fighting with the Turks in German uniforms.

King George will issue a proclamation to the people of Greece today.

The Standard's Constantinople correspondent describes the Turkish fleet and characterizes its appearance as ridiculous. He says that six-inch guns are the heaviest carried. The captains of all the war vessels in the Dardanelles, including the torpedo boats, sent a round robin to Hefe Pasha declaring the fleet unfit for sea. The vessels have, therefore, been ordered to return, but singly, so as not to attract public attention.

Orders have been given to mobilize the Redifs of the fourth army corps and twenty battalions of Redifs of the second army corps.

It is reported that Ahmid Pasha has been ordered to leave forthwith for the scene of action. It is also reported that the plan of campaign approved by the sultan, to take effect after the capture of Larissa, is to divide the army into two corps, one of which is to march by way of Volo and the other by a westerly route, and the two to unite at Athens, which is to be occupied and held until heavy indemnity is paid.

A dispatch to the Morning Post from Karvassara says it is reported that civil war has broken out among the Turks in Prevesa, and that the surrender of the town is expected hourly.

Constantinople, April 23.—M. Cambon, the French ambassador, has notified the porte that the French government intends to take under its protection the Greek Catholics in the Turkish empire. As yet it has not been decided which power will protect the orthodox Greeks.

The exodus of Greeks from all parts of the empire, and particularly from Constantinople, continues.

The Turkish government denies that the Greeks have captured the islands of Mitylene and Scio, off the west coast of Asia Minor.

Greeks Return from Nezeros.

Athens, April 23.—A dispatch from Larissa says that the Greek artillery at Reveni was re-inforced and has Vigla to silence. This will enable the brigades of Col. Smolentz and Col. Dimopoulos to unite in a movement toward Damasi.

It appears that the capture of Fort Salagora, on the Gulf of Arta, was effected by a joint attack of a Greek column from Bani and cavalry from Arta. There has been a good deal of revolver firing in the streets here today.

Athens Has 40,000 Volunteers.

London, April 23.—A special dispatch from Athens says that offers of help are reaching the Greek government from all quarters, and the military authorities expect to have 40,000 volunteers enrolled before the beginning of next week.

Russia Ready to Interfere.

FOR CANADA'S TARIFF BILL

Designed to Discriminate Harshly Against the United States.

Ottawa, Ont., April 23.—The galleries of parliament were crowded when Mr. Fielding, minister of finance, rose to deliver the annual financial statement and to present the new tariff bill. He estimated the deficit this year between \$600,000 and \$1,000,000. Next year's revenue is estimated at \$37,500,000, and expenditures of \$38,250,000. The net increase of the debt this year would be \$1,250,000, and next year \$2,250,000.

Minister Fielding said that the government had decided on a policy of favoring those countries which favored Canada, consequently there would be a double-column tariff. The general tariff, which he read, was on the whole an increase on existing duties, and is adverse to the United States. The government reserves to itself the right to impose an export duty on logs and pulpwood. Corn is placed on the free list to benefit the farming community in Canada, also binder twine and barbed wire. All iron duties are increased, but Great Britain will obtain material reduction, while the United States will have to pay higher duties.

Kentucky Battle Still Raging.

Frankfort, Ky., April 23.—The withdrawal of Dr. Hunter from the senatorial contest has increased the number of candidates, and the end seems farther removed than ever. In the assembly there was no quorum, the Republicans refusing to answer to the roll call. The fifty-sixth ballot was taken without result. In the Republican caucus ten ballots were taken, but no choice was decided upon. Deboe had thirty-one votes, five short of the number necessary.

DAY'S PROCEEDINGS AT THE CAPITAL

BANKRUPTCY BILL PASSED BY THE SENATE.

The Substitute Offered by Mr. Neilson of Minnesota Favored—House Arranges to Consider Senate Amendments to the Indiana Bill—Senate Will Postpone Business.

Washington, April 23.—The session of the senate Thursday was one of the most eventful since congress assembled. It opened with a proposition for an official expression of sympathy to the Greeks in their struggle with Turkey. This soon was merged into a turbulent debate over the disorganized state of the senate, during which Senator Morgan characterized Speaker Reed as the "great white filibuster." Later in the day the Nelson bankruptcy bill was passed by the decisive vote of 49 to 8.

Mr. Morgan characterized the condition of inaction in the house of representatives as "the most gigantic and unheard-of filibuster" ever attempted.

Another stirring chapter to the same subject was added by Mr. Allen, who proposed a complete cessation of senate business, except to consider appropriation bills, until the committees were filled. The resolution finally went over.

The bankruptcy bill as passed is the substitute framed by Mr. Neilson of Minnesota. It provides for voluntary and involuntary bankruptcy, but the theory of its author was to free it from harshness and make it of substantial benefit to debtors and creditors. The vote on the bills was as follows: Yeas, 49; nays, 8.

The "free-homestead bill" was made the unfinished business of the senate. A committee of fifteen senators was named to participate in the Grant ceremonies.

On the announcement of the death of Representative Holman, the senate adjourned as a mark of respect, the adjournment being until next Monday.

IN THE HOUSE.

Arrangements for the Consideration of Senate Amendments.

Washington, April 23.—The house adopted a special order for the consideration of the senate amendments of the Indian appropriation bill without reference to a committee. The Democratic dissensions again came to the surface. Mr. Bailey and his followers joined with the Republicans on this proposition after the special order had been modified so as not to cover the appropriation bills.

Mr. Bland of Missouri protested vigorously against the course but only had a following of twenty-four, not enough to get a second vote.

The senate amendments of minor importance were concurred in, excepting that removing the Indian supply depot from Chicago to Omaha. The amendment relative to the opening of the Uncompagne reservation was not acted upon today. While it was being debated the death of Judge Holman was announced, and as a mark of respect the house adjourned.

Senate Will Postpone Business.

Washington, April 23.—Although no formal action has been taken, an understanding has been reached that the senate will not do any more business until a week from next Monday. When the senate meets on Monday an adjournment will be taken until Thursday, and on Thursday another adjournment taken to the following Monday. This will allow those who desire to attend the Grant monument ceremonies to do so.

Duty On Hides Fixed.

Washington, April 23.—A decision has been practically reached by the Republican tariff subcommittee of senators to make hides dutiable at the rate of 1 1/2 cents a pound. The advocates of an increased duty on lead ore are said to have also won, and, according to the best obtainable reports, the McKinley rate of \$30 a ton will be restored. There will also be a rebate on tin used in canning fruit and fish to be exported.

Express Sympathy for Greece.

The bill creating the office of purchasing agent for state institutions was killed after long debate.

The Clason pure beer bill was killed in the senate.

After the assembly adjourned, the members became very frolicsome and threw waste paper baskets, files of bills and a millar things at each other.

WILL FIGHT FOR THE LEVEES

Negroes Refuse to Drive Their Cattle Off Flood Plains.

New Orleans, La., April 23.—The Madison levees are endangered by the thousands of head of stock now feeding on them. President Maxwell of the levee board undertook to clear the dikes of mules, horses and cows. The negroes, who owned most of the stock, were very excited over this action. They resisted the efforts of Mr. Maxwell to load the cattle on vessels, and only ceased when the sheriff and a posse, armed with shotguns, overawed them.

As feared, trouble is threatened between the United States relief agents and the planters. One of the largest Louisiana planters, whose place is under water, Maj. Bedford, applied for tents for his night hands. The United States officials would not accede to his request, as they felt that the levee at that point was a bad place in which even temporarily to lodge families.

The remedy they proposed was that Maj. Bedford's laborers and their families should be transferred to Vicksburg or its immediate neighborhood, where the government would undertake their care for the time being. This proposal was opposed vigorously by all the Louisiana planters to whom it was made. The levees are still in very grave danger and if the negroes learn that the government will feed and lodge them at Vicksburg, they will flock to that city, not only from the overflowed lowlands, but from those that are still dry, and even from the hill parishes. There will be no labor left to care for the levees that are still standing and when the waters subside there will be no negroes on the land to do the planting. No agreement has yet been reached.

The fear that the levees may be cut by a mob from New Orleans still prevails at all points near the city, even at Algiers, the western suburb of the city, and an army is stationed all along the levee on both sides of the river from Baton Rouge to New Orleans.

An attempt was made to cut the levee at the Caison place on the Atchafalaya. The police juries of Ascension, Iberville and West Baton Rouge are alarmed over the river, and have sounded notes of warning to the people of those parishes and issued calls for levee volunteer guards and workmen, which are being well responded to.

KING HUMBERT.

an iron-worker out of employment, attempted to stab his majesty with a dagger.

The man was seized before he could carry out his purpose, and the king proceeded to the Campanelle racecourse, seemingly unmoved. On arriving at the racecourse his majesty was greatly cheered.

Acciarito was brought before the minister of justice and the prefect, and he declared he had no accomplices, but did not conceal his anarchistic ideas. It seems that he yesterday declared he intended to kill a distinguished person. He will be sent to a criminal lunatic asylum.

THE DEATH OF MR. HOLMAN

Representative Passes Away in Washington Yesterday Afternoon.

Washington, April 23.—Representative Holman of Indiana died at his home here at 2:05 o'clock Thursday afternoon, after an illness of several weeks. Spinal meningitis was the cause of death.

William Steele Holman's public life began the very year he became of age. Born at a pioneer homestead called Veraestau, in Dearborn county, Indiana, Sept. 6, 1822, he became a judge of the Probate Court in 1843, and continued as such until 1846. After leaving the bench he was elected prosecuting attorney, and filled the position from 1847 to 1849. He was a member of the convention of 1850 which framed the present constitution of the State of Indiana, then a member of the state legislature. His congressional career began with his election to the house of representatives in 1858. With three exceptions, he has been elected to that body biennially ever since. One of these exceptions was in 1864, when he was defeated for the nomination because he was a war democrat. In 1880 Judge Holman was returned to congress and with the exception of one term had remained a member ever since. Throughout the whole of this period Judge Holman was one of the most efficient and trusted of the democratic leaders. His name became synonymous with the watchwords "economy and frugality" in government expenditures. Probably no other member of congress, in either branch, was so thoroughly versed in all the statutes of the United States, or so familiar with the circumstances of their enactment and the effects of their operation.

He married Miss Abigail Knapp while he was studying law in 1842.

The grand jury indicted him for murder in the first degree and he was brought back to Shoals last Friday night.

The trial of Walker comes off Monday and he will have to be brought back about Sunday night, when it is expected another attempt at lynching will be made.

In the Michigan Legislature.

Lansing, Mich., April 23.—A senate caucus has decided that there shall be no increase in the present uniform liquor tax of \$500. This body has passed a bill permitting suburban electric roads to carry farm produce. The first round in the fight over the bill to reduce passenger rates in the upper peninsula to 3 cents a mile was won by the friends of the bill, it being allowed to take its usual course instead of being killed on the adverse report of the railroad committee. A bill was favorably reported providing that fire insurance companies may be required to pay local taxes of 2 per cent of their gross receipts for the support of fire departments.

\$26,000 PER YEAR CAN NOW BE SAVED

REPUBLICANS CUT THE STATE EXPENSES.

The Special Committee's Report Regarding the Number and Salaries of Employees in the State Capital—Adopted by Both Houses—Employees Protest in Vain.

The employees in the state offices who set out to kill the bill for a re-adjustment of their number and compensation did not do very well yesterday. There was evidence of a well arranged attempt to bury the bill alive with amendments in the senate. About twenty were offered at once, the majority of the senators neglecting to attach their names. A motion was made to have the bill with amendments referred back to the Committee on Claims. The committee did not care to get it back.

Then Mr. Austin took the floor and cleared the air of nonsense. He said the bill represented work by the committee which the legislature as a body could not do. The committee was composed of gentlemen of the highest integrity in both houses who had worked hard and submitted a bill in good faith. He was opposed to all amendments and to all re-reference, and would prefer to vote for the bill as it was before the claims committee had heard employees and made changes.

Mr. Dennett's Plan.

Mr. Dennett of the special committee said there were only two propositions for the senate to consider. One was to rescind the original resolution and relieve the committee, and the other was to adopt the bill as received. God knows he didn't want the job, but it was not fair to put the dirty work upon the committee and then yield to the influence of interested parties upon individual senators. The senate should take a dignified course and stand by the committee's conscientious work.

The senate took the limit. It voted down the motion to re-refer and killed the swarm of amendments off as fast as they could be read, including two which were approved by the special committee as well as the Committee on Claims, but which it was necessary for Mr. Dennett to ask for before they were reconsidered and adopted. Then the bill as amended was ordered to a third reading and immediately taken up and passed under suspension of the rules, the only vote against it on roll being that Messrs. Lamoreux, McGilivray, McMullen, Riordan and Walton.

The bill was messaged over the assembly tonight and Speaker Buckstaff announced that it would be over until tomorrow. But the calendar was finished before 9 o'clock and in order to expedite business, the bill was taken up without opposition. There was no debate on the measure, though Mr. W. A. Jones of the special committee which drafted the bill took occasion to make a few remarks in reply to questions asked by Messrs. Frik and True. The latter offered an amendment to the bill to increase the salary of the volunteer service clerk in the adjutant general's office from \$1,200 to \$1,380 a year. Later he withdrew the amendment.

Mr. Jones, in speaking for the bill, said that the committee did not legislate against particular persons. The facts alone had been considered. The committee had found an army of twenty-eight janitors, enough to run the capitol inside out. They thought eighteen janitors ample, and had recommended this number. He said that under the present system men are forced upon the governor and other state officers in order to pay political debts. The bill reported was aimed to do away with this, or at least to lessen the practice.

The Figures Given

The following statement was presented by Mr. Jones, showing existing salaries of the several departments of the state government, as shown by the regular employees' schedule, and as proposed by the bill:

	March, 1897.	Proposed by bill.
Supt. of public property.....	\$71,921.40	\$49,130.00
Secretary of state.....	28,740.00	25,800.00
Supt. of public instruction.....	8,299.92	9,120.00
State treasurer.....	12,847.78	12,540.00
Land office.....	19,716.00	7,500.00
Adjutant general's office.....	10,528.55	7,500.00
Quartermaster general.....	3,280.00	3,300.00
Bank examiner.....	7,503.96	7,500.00
Insurance department.....	3,300.00	10,620.00
Railroad commissioner.....	1,750.00	2,220.00
Board of Control.....	2,944.00	4,500.00
Dairy and food commission.....	6,000.00	6,800.00
Labor bureau.....	6,944.00	8,340.00
Attorney general.....	2,000.00	7,920.00
Governor's office..... (Draughtsman)	1,200.00	
Totals.....	\$186,791.88	\$164,450.00

Saving of \$20,900 Annually.

Mr. Jones said that these figures showed a net saving to the state of \$22,341.80, but to this should be added \$3,600 paid for special counsel of the Fish and Game department, showing a decrease in the salaries of \$25,941.80 under the bill reported by the special investigating committee. He said that the Committee on Claims had amended the bill, making an increase of \$4,102, making the bill as it came from the senate and as it was ordered to a third reading, show a saving to the state salaries of \$21,839.80. Mr. Jones added that this is what was shown on the face of the bill, but it was a fact that Insurance Commissioner Fricke had collected about \$6000 in fees in the last year which partly had gone to pay an attorney and an examiner. These fees would hereafter be paid into the state treasury. The bill was then ordered to a third reading by a nearly unanimous vote.

Assemblyman Wheeler was a member of the committee that drew up the bill.

FACTS WITH POINTS.

Every One of These Statements Absolutely True.

Mr. A. W. Sharper, 61 Prospect St., Indianapolis, Ind., says: "Gratitude prompts me to write that Stuart's Dyspepsia Tablets completely cured me of Nervous Dyspepsia from which I had suffered for the last four years. I had tried many remedies without results, but am now cured and have gained in flesh, sleep well and have none but words of praise for Stuart's Tablets."

Mrs. Sarah A. Skeels, Lynnville, Iowa: "It has been six months since I took Stuart's Dyspepsia Tablets and am fully cured. Have not had a particle of distress or difficulty since. This is in the face of the fact that I had suffered from stomach trouble for twenty-five years and was pronounced incurable by the doctors."

James Newmest, Eau Claire, Wis., says: "Two 50 cent packages of Stuart's Dyspepsia Tablets did me more good than any remedy I had ever before tried. They hit the spot with me and I once more have an appetite and can eat what I please without fear of distress and bloating afterward."

Dr. Harlandson relates the case of Miss Helen Sholes, of Nashville, who was cured of dyspepsia and gained 18 pounds in weight after suffering from stomach trouble for eight years. The doctor uses them in all stomach troubles because they are not a secret patent medicine, but contain pure pepsin, Diastase, fruit acids and valuable digestives, which digest the food whether the stomach works or not, gives it the needed rest and a cure is the natural result.

Dr. Jennison says nine-tenths of disease is caused by indigestion and Stuart's Dyspepsia Tablets is the safest and best cure, because they are not a secret patent medicine, but contain the valuable digestive principles needed by every weak stomach and a whole box would not hurt a child, being absolutely harmless.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents per package. Send to Stuart Co., Marshall, Mich., for little book on symptoms and treatment of stomach troubles.

Serious Danger

Threatens every man, woman or child living in a region of country where fever and ague is prevalent, since the germs of malarial disease are inhaled from the air and swallowed from the water of such a region. Medicinal fevers are absolutely necessary to nullify the danger. As a means of fortifying and acclimating the system so as to be able to resist the malarial poison, Hostetter's Stomach Bitters is comparatively the best and most popular. Irregularities of the stomach, liver and bowels encourage malaria, but these are speedily rectified by the Bitters. The functions of digestion and secretion are assisted by its use, and a vigorous as well as regular condition of the system promoted by it. Constitution and physique are thus defended against the inroads of malaria by this matchless preventive, which is also a certain and thorough remedy in the worst cases of intermittent and remittent fevers.

THE TRADE IN LEAF IS "PICKING UP"

TENDENCY IS TOWARD A BETTER MARKET.

Very Little Goods Remains in the Growers' Hands, and All in Being Bought as Rapidly as Possible—Little Sowing Yet Done—The Sales Reported up to Date.

Local tobacco market conditions jog along at a tardy pace, with a tendency toward a faster gait, says The Leaf. The tobacco remaining in the hands of the farmers is being steadily picked up, but this is an insignificant quantity. Around the warehouses there is not much selling, as many of the packers prefer to wait for higher prices, which they think, are sure to come. There are about half a dozen buyers riding from this market. Among the larger transactions reported are:

173 cases sold and several crops of '96 bought by G. E. Bumfill; 25 cases sold and 4,000 pounds of '93 bought by A. L. Fisher; several small lots sold by S. B. Heddies and several lots bought and sold by Joseph Grundy, T. E. Welch, J. A. Ryan, F. S. Baine, and others.

The weather remains cold and wet seriously retarding sowing. While some have sown a portion of the seed, the majority of the farmers are awaiting warmer weather and will sow sprouted seed.

Some Local Leaflets.

A. L. Fisher shipped a car of tobacco Monday.

S. B. Heddies shipped two cars of tobacco to Detroit recently.

H. N. Hengard is building a tobacco warehouse at Orford.

Joseph Grundy started up his assorting room Monday and has 200 cases of '96 to pack.

Representatives of the Big 4 and Great Eastern through freight lines were soliciting business in this market Tuesday.

B. M. Johnson, the well known leaf man of Orford, was in this market Saturday. He states that the tobacco in that section is pretty well bought up and that there will be a large increase in the acreage this year as compared with that of last year.

Stop! Women,

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

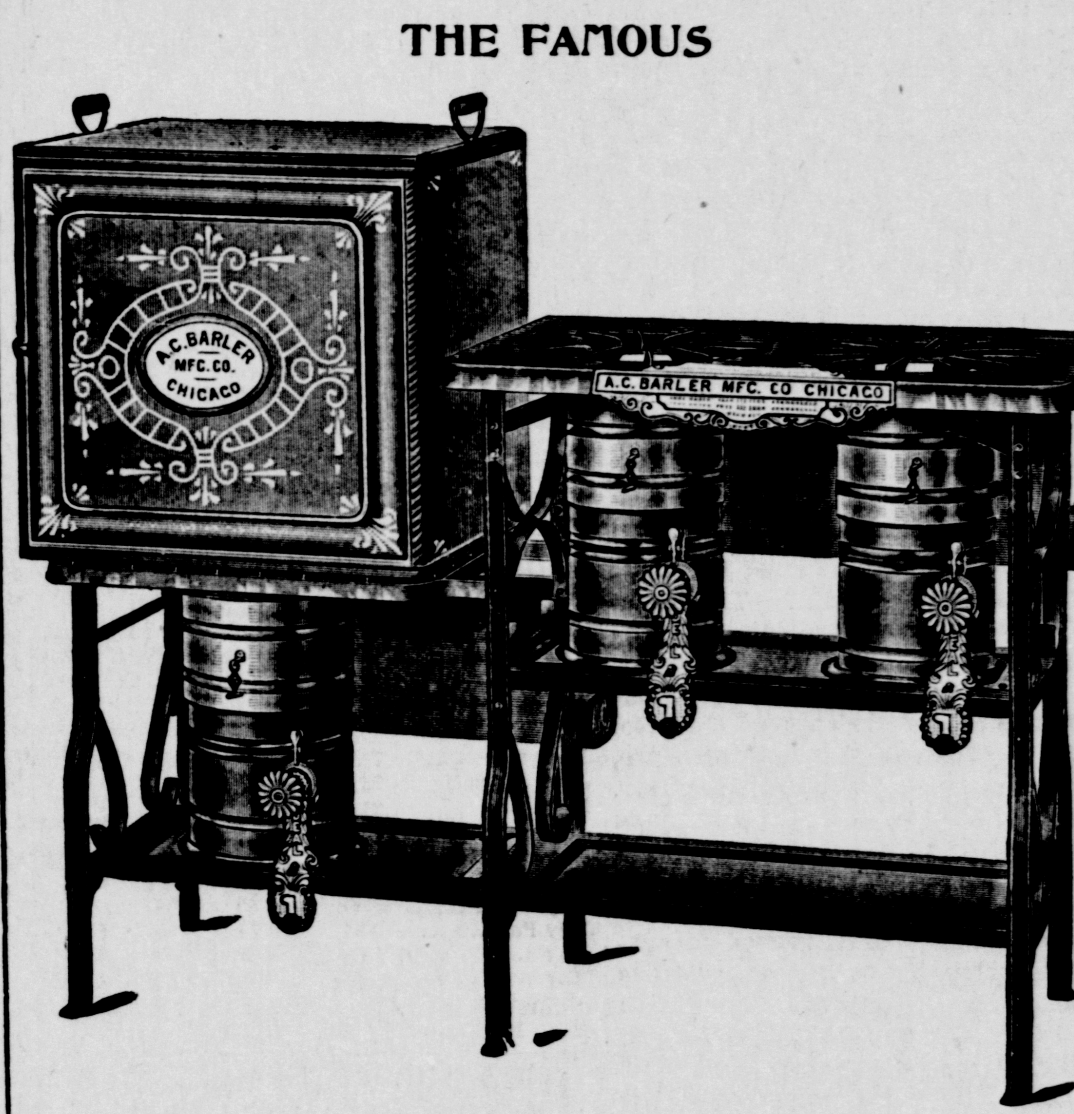

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

CUTTING DOWN THE FORCE.

The legislature tolerated no nonsense when dealing with chair-warmers in the capitol. The bill reorganizing the capitol service as recommended by Governor Scofield came before the senate yesterday and an effort was made by employees to bury it with amendments. It took the senate just fifteen minutes to kill twenty amendments and vote down a motion to re-refer. The joint committee, of which Assemblyman Wheeler, of this city, is a member, was upheld at every point.

When the bill reached the assembly it was ordered to a third reading by a vote nearly unanimous. Its passage is certain and a saving of \$27,000 a year is thus insured.

The committee worked hard to get the bill into satisfactory shape. The following table shows existing salaries of the several departments and the totals as proposed by the bill:

	March, 1897.	Proposed by bill.
Supt. of public property	\$71,921.49	\$49,430.00
Secretary of state	\$8,740.00	\$5,800.00
Supt. of pub. instruction	\$8,299.22	\$9,120.00
State treasurer	\$13,847.88	\$12,540.00
Land office	\$19,716.00	\$7,500.00
Adjutant general's office	\$10,518.86	\$7,500.00
Quartermaster general	\$3,280.00	\$3,300.00
Bank examiner	\$7,500.00	\$7,500.00
Insurance department	\$2,300.00	\$10,720.00
Railroad commissioner	\$1,750.00	\$2,220.00
Board of Control	\$2,504.00	\$4,640.00
Dairy and food comm'r	\$6,096.00	\$6,800.00
Labor bureau	\$6,904.00	\$8,340.00
Attorney-general	\$2,000.00	\$7,820.00
Governor's office (Draughtsman)		\$1,200.00
Totals	\$186,791.80	\$164,400.00

These figures do not show the entire saving, it should be remembered. There must be added \$3,600 paid for a special counsel of the fish and game department, and \$600 paid by insurance Commissioner Fricke out of department fees for an actuary and examiner.

NOT TO BE CRUSHED.

It is to be expected that the Greeks will meet with some setbacks at points on the frontier where the Turkish troops are heavily massed. They face an adversary far more powerful than themselves, but their enthusiasm is unchangeable and they fight for a noble idea. They have not counted the cost in any direction, nor considered the odds. What they ask is a chance to risk their lives in an effort to liberate their Greek brothers. In this inspiration (the Greek women show the same settled purpose as the men). It has attracted volunteers from other lands where the Greek spirit finds a generous response. The manhood and the treasure of Greece will be devoted to this war, and if at its close the Turk still remains master it will be because no organized force is left to continue the struggle. Even then the hope of the united Hellenic nation will not be abandoned.

NO PANIC YET.

None of the direful consequences that were to follow the supreme court decision against pooling have become apparent. No signs of a war of rates have appeared anywhere as yet, and stocks, on the whole, are as steady and as high as they were a week before the decision was rendered. In fact the general business conditions are somewhat better than they were a month or two ago, despite the floods and the other adverse influences which have appeared since. If the tariff bill is as sensible and well balanced a measure as it is likely to be, and if it becomes a law without any unnecessary delay, a trade revival in the latter part of the year more marked and a good deal more lasting than that which appeared in the fall of 1895 may be looked for.

THE CAUCUS LAW.

By disregarding the advice volunteered by amateurs and theorists the legislature has framed a primary election law that will give general satisfaction. It applies to municipal elections in cities of the third and fourth class only, when the people so decide, but the test of the law at the next general election is likely to be so satisfactory as to insure its use at all elections. One feature about the law will appear cumbersome—the preliminary ward meeting to present names for a caucus ticket. It was found difficult to devise any other method that would give all factions fair representation, however, and the extra meeting was thought preferable to the risk of excluding the name of any bona fide candidate from the ticket.

A. N. CRANDALL of Rockford, is now a member of Smith's orchestra.

WONT RELEASE DR. HALSEY.

His Janesville Church Wants Him to Remain Its Pastor.

The Court Street Methodist church of Janesville has refused to grant the request of Rev. Sabin Halsey for a release as its pastor and is endeavoring to induce Mr. Halsey to continue as pastor of the church but to take a vacation just as long as may be necessary to restore his health. Mr. Halsey, however, does not care to do this but he may be obliged to, for the official board of the church has notified the presiding elder of its wishes so that Mr. Halsey is likely to remain the nominal pastor of the church while the pulpit is filled and the church looked after by supplies.

Mr. Halsey was in the city this morning. He said that he had made no plans and spoke very feelingly of the kindness of his church members. He said that he had not been preaching for the last three weeks and that he felt better. Mr. Halsey has preached continuously for twenty-eight years, without a vacation and the doctors ascribe his present condition to this fact.

While he has made no definite plans, it is almost certain that Mr. Halsey will come to Milwaukee and find something to do for the doctors have informed him that the effects of idleness will be quite as injurious as the results of hard work—Milwaukee Evening Wisconsin.

THE ANNUAL BUTCHERS' BALL

Very Pleasant Dancing Party Given at the Armory Last Night

The fourth annual ball of the Janesville butchers was given at the Armory last night, and was largely attended. Smith's orchestra of ten pieces furnished most delightful music and there was nothing lacking that would tend to add to the pleasure of the guests. O. H. Kueck and C. E. R. Erickstedt were on duty at the door, while Henry Krontz had charge of the tickets. Prof. C. C. Williams of Whitewater, and Miss Augusta Krontz led the grand march which occurred at 9 o'clock. Supper was served at Watson's restaurant, and the revelry continued until 3 o'clock this morning. The committees in charge were:

Humphrey Bills Called Up.

Springfield, Ill., April 23.—The Humphrey bills made their official appearance in the house on Thursday, when Representative Bailey of Danville got the floor and moved that No. 258, the franchise extension measure, be taken up and read a first time. Mr. Bailey is opposed to the bill and made this move for the purpose of forcing a test vote. Several legislators protested. Speaker Curtis announced the objection and Bailey then moved to suspend the rules. A score of speeches were made on the motion. The roll call showed that the house refused to suspend the rules and give a test vote on the bills. The yeas were 57 and the nays 84.

Majority for Justice Long.

Lansing, Mich., April 23.—The canvass of the election returns for state officers, footings of which are being made by the secretary of state, show that Long, Republican candidate for Supreme court justice, received 207,700 votes; Yaple, fusion, 136,600, and Fotte, National Democratic, 31,000. Long's plurality being 71,000, and his majority over all candidates, 27,000. The constitutional amendment increasing the salary of the attorney general received an adverse majority of 20,800.

Lynching at Alexandria, Va.

Alexandria, Va., April 23.—Joseph McCoy, colored, was lynched here Thursday for assaulting his employer's two daughters. He confessed his crime. Two attempts were made to break in the jail. The second attack was made by a mob of 500 men, who overpowered the jailers and hanged the prisoner to a lamp-post.

Legal Ruling Against Passes.

Indianapolis, Ind., April 23.—Attorney-General Ketcham made a ruling Thursday against state officials who ride on railroad passes. It has been the custom for all to include railroad fares in expense accounts. The attorney-general decides that the auditor shall not allow for railroad expenses when officers ride on passes, as the law does not provide for mileage, but for expenses.

Must Obey Liquor Law.

Terre Haute, Ind., April 23.—The new police board has ordered the strict enforcement of the Nicholson law. The board orders all screens taken down and gives special instructions against the wineroms and gambling, which has been carried on in a quiet way.

Price of Window Glass Advanced.

Chicago, April 23.—An advance of 5 per cent in the price of window glass, effective throughout the country on May 3, was ordered yesterday by the national executive committee of the Western Window Glass company of the Pittsburgh Window Glass company.

THE NEW FIRE INS. COMPANY

It Is Organized On the Same Plan As the Beloit Company.

The Citizens Mutual Fire Insurance company of Janesville, Wis., has been organized by Mr. Van Akin of Beloit, on a similar plan to which he organized the Beloit Mutual Co-operative Company in the summer of 1895 and began writing insurance August 1. On January 1, 1897, his report to the insurance commissioner showed that the company was carrying \$505,780 of insurance. All losses paid (except one small one in litigation) and \$5765.49 on hand, after having saved to the insured on about 175 policies that expired in the last five months of 1896 about \$1,000. Mr. VanAkin can give the names of seven firms, who have transferred \$34,700 from stock companies to our Mutual plan. He can also give the names of fifteen policy holders, who saved \$132 on renewal. And also can show many instances where, in consequence of his work stock rates have dropped; to 20 per cent.

The Citizens Mutual varies its plan somewhat from the Beloit, by writing the insurance at the 1892 rate and the board are confident that on expiration of policies, from 15 to 25 per cent can be returned as dividends to the insured since the Rockford (Ill.) and the Van Wert (Ohio) Mutuals both on the same plan have been giving back dividends of 20 per cent for 16 and 21 years respectively. This company could commence writing insurance at once but they wish to secure \$100,000 of pledged insurance before so doing and if parties who have policies expiring within a few weeks or months, or who need additional insurance would leave their names, street number, and date of expiration at I. C. Brownell's store, J. A. Cunningham's clothing factory, C. D. Stevens' drug store or Bower City bank, or address a card to C. W. Van Akin, it would expedite matters materially. It is hoped that people whose policies on private dwelling are expiring in the near future, will consider this matter, as you can effect a great saving in this way. Lend a helping hand, in building up a cash mutual, on the same plan of eastern cash mutuals. Example: In Rhode Island, during 1895, thirty-two mutuals did nearly four times as much business as seventy seven stock companies. People in other cities and villages of Rock, Green, Dane, Jefferson and Walworth counties, are kindly invited to investigate these principles.

C. W. VAN AKIN.

Says King George is the Greatest Man Alive, and That His Subjects Are Braver and More Skillful Soldiers Than the Turks—Sails on Sunday.

"The Turks may outnumber us, but we are more skilled in warfare, and our men are braver," said a resolute young man who swung himself from the C. & N. W. train this morning, and hastened to buy a Chicago paper. The young man's name was Antonios Gsypre, and he is a native born Greek. He arrived in the city this morning from St. Paul, and was on his way to his native country to fight the Turks.

After he had purchased his paper of the newsboy, and glanced at the headlines, he was ready to talk, and conversed freely with passengers who stood about the platform. He said he was once a subject of King George, and considered him the greatest man in the world today.

He was confident of Greek success, and had kept track of every move that has yet been made by the armies on either side. "The Turks may outnumber the Greeks, but they are not well posted in warfare nor are they as brave as the Greeks when an occasion demands sacrifices," said Gsypre. "I expect to reach New York City Sunday, and from that port I will sail for Europe with several other of my countrymen who are now Americans, but who yet have a warm spot in their heart for the land in which they were born. There can be but one result," he declared, emphatically, "and that is the defeat of the Turks. The Greeks have right on their side, and they will fight until the last drop of blood is gone."

TO TRY TEMPLE BAR CASE

Dr. Sale's Suit Against the Cleveland Driving Park Now Pending.

Janeville people who know Driver George W. Spear, and remember the match race between Temple Bar and Prince M., which occurred on the Janeville track, will be interested in knowing that the famous "Temple Bar case" is expected to come up for trial in the courts within a few days, and a number of well known horsemen will testify. The suit grew out of a race on the Cleveland track in July, 1891. Temple Bar was entered by Dr. Miles S. Sale. The horse was in good condition. George W. Spear was the driver. At the end of the second heat the judges called Spear to the stand. He was ordered out of the sulky and another driver put up. Templebar won the three remaining heats and the race. The horse, driver and owner were then expelled from the grand circuit tracks. The decision was afterward affirmed by the National Trotting association. Three years ago Dr. Sale brought suit against the Cleveland Driving Park association for \$110,000 damages. The decision is awaited with great interest by horsemen, and it is said several other cases hinge upon this one.

TAMALE TIME AT A BALL GAME

Arthur Sickles, the ball player, who pitched three games in this city last season for the Edgerton team, is liable to be the cause of much trouble tomorrow afternoon when the Northwestern University team will meet the Beloit college team. Sickles plays with the Northwestern team and the Beloit boys claim that he is a professional player, having played with the Edgerton team for money. Protests have been entered, and the Beloit men will seek to have Sickles barred out. The game will be called at 5 o'clock.

The Farmers Are Greatly Delayed in Their Spring Work.

BAN PUT ON WEED BY C. M. & ST. P. CO.

SMOKING WHILE ON DUTY
FORBIDDEN.

New Order Was Placed Yesterday, and Applies To All Employees in All Departments, So "Dudeens" and Havana Perfectos Are Placed On An Equa Footing.

WANTED—A barrel of dead sea remedy for the "using tobacco during business hours habit." Address "Railroad Man," this office.

The local employees of the Chicago, Milwaukee & St. Paul road company must forego the pleasure of smoking while on duty or else give up their jobs.

If the latest order sent out from headquarters is enforced there will be no more puffing of cigars and pulling at pipes by the fifty men employed by the company in this city. The order was ticked into the local office by telegraph yesterday, and Operator John Hayes posted the notice on the bulletin board.

The majority of the local employees are smokers. Most of the men employed on the road; in the local yard; and at the round house, "burn their money" in a pipe. Many of these men have worked for years with a pipe in their mouth, and to make them comply with the new rule, will they insist, be quite a hardship.

A prominent official, who was in the city this morning, said the rule was made to stop the men from smoking about the depots but that in order to enforce it, they were obliged to make it cover all departments.

Several rare old maerschaums and numberless briars and cigs can be secured at a bargain about the depots.

WANT EDGERTON POSTOFFICE

C. R. Bentley is in Washington Looking After His Fences.

The contest over the postoffice at Edgerton is becoming warmer each day. The Milwaukee Sentinel's Washington correspondent says: "Charles R. Bentley, one of the leading candidates, has arrived here, and he has notified the powers that he intends to remain until he has captured the postoffice. There is no change in the situation, and the names of the four candidates are still on the list. The term of the present postmaster expires in a few days, when the appointment of his successor will be made. There is no reason to change the prediction made a few days ago that the chances at present favor H. A. McGiffen and A. E. Cove."

TOOK THE NAMES OF MANY CYCLISTS

POLICE TO HAVE A "WHEEL-
MEN'S DIRECTORY."

Chief Hogan Had the Entire Department Massed on Main Street Last Night, Making Notes of the Riders Who Had No Lamps—The List is a Long One.

Cyclers are on the auxonne seat.

How many of those whose names were taken down, will be "taken up?" That is the question.

Local riders realized last evening that the "lamp ordinance" is to be enforced. Chief Hogan and Officer Appleby and Brown were stationed at the corner of Milwaukee and Main streets and all riders who had no lamps were called to account. Their names were taken, and a fair warning was given time. During four hours the police secured the names of fifty people who had disregarded the ordinance.

What the officers will do in the matter is the cause of much speculation. It is said that they now have a list of nearly two hundred people who have been riding without lamps or bells. In case they are all prosecuted the fines would make quite a respectable sum of money. In all probability the officers will now keep track of all riders who have been warned, and the next time they appear on the streets without a light, they will be conducted to the "captain's office." The police have given the riders fair warning, hence violators of the ordinance cannot complain if they are arrested.

IN THE WHITE HOUSE

THE OFFICIAL QUARTERS OF THE EXECUTIVE.

The "Hall of the Disappointed"—A Telephone Is Almost the Only Modern Improvement in the Building—Official Cares.

White House," devoted to the official cares and duties of the President, in the course of which he says:

At ten o'clock a hardly discernible sign against the glass of the barrier announces to the citizen who has arrived under the grand portal that the executive mansion is "open" to visitors; at two o'clock the sign is changed to "closed." The doorkeepers swing the doors open to everybody. Within the large vestibule nothing is seen which indicates the arrangement and purposes of the different parts of the mansion. It was not always so, for originally the now concealed corridor, or middle hall, with the staircase on the right, was a part of the entrance hall; now the spaces between the middle columns are closed with colored glass partitions, and the vestibule is simply a large square room pleasant to get out of. No way appears to open to the state apartments in the center, or to the west wing, which is devoted to the private apartments; yet glass doors are there, though as imperceptible to the stranger as a swinging panel. To the left there is a door which is always open. It admits to a small hall across which a similar door is the side entrance to the great East Room. About this splendid room, comprising the whole east end of the mansion, the visitor may wander at will before the portraits, or enjoy from the windows the beauty of the Treasury building to the east or the impressive landscape to the south, including the towering shaft of the Washington monument, and, beyond, the ever-charming Potomac spreading with enlarging curves toward Mount Vernon; and in the private garden under the windows he may chance to see a merry band of little ones, two of them the President's oldest daughters, with a few playmates belonging to a kindergarten class.

From the small hall between the vestibule and the East Room a stairway ascends toward the medial line of the building to a wide middle hall, on each side of which are the offices of the President. The arrangement is simple, and in the floor-plan covers the space occupied below by the East Room and the Green Room, the latter being the counterpart of the small hall with the public stairway, just mentioned. At the head of these stairs, over the Green Room, is the Cabinet Room, which is the first apartment in the south side of the hall; a jog of two steps, at the private door into the President's room, marking the raised ceiling of the East Room below. The President reaches his office through the Cabinet Room, entering the latter from the library, which corresponds on the second floor with the Blue Room of the State apartments. President Arthur, indeed, used the library as his office and the cabinet chamber for an anteroom, while his private secretary was domiciled in the traditional office of the President. During his first term Mr. Cleveland preserved the same arrangement; but General Harrison went back to the office hallowed by Lincoln's occupancy, and Mr. Cleveland, on his return, found the arrangement so satisfactory that he continued it. Beyond the President's large square office is the corner room where Private Secretary Thurber is always either wrestling with the details of executive business or standing with his shoulder braced against the crowd struggling to see the President. It is a narrow apartment, and might be called appropriately the "Hall of the Disappointed," the suggestion being emphasized by portraits of the greatest of presidential aspirants, Clay and Webster, to which Mr. Thurber has added, as his private property, an engraving of the closest contestant for the office, Governor Tilden. On the north side of the hall there are two rooms which correspond to those on the south side just described, the small one being occupied by Mr. O. L. Pruden, the assistant secretary since General Grant's time, and the custodian of the office books as well as of the traditions which govern the public social routine of the executive mansion; in his room sits the telegraph clerk at his instrument, and by the window is a telephone, which saves a great amount of messenger service between the President and the departments. Occasionally a congressman, with less ceremony than discretion, attempts to get an appointment with the ear of the President over the telephone, and there is a record of a stage earthquake produced in the private secretary's room by a furious congressman who found the telephone ineffective, and his Olympian style even less so. Notwithstanding that it is almost the sole modern improvement in the White House, the President has been seen at the telephone but once, and then, needless to say, not on call.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Wherever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale at C. D. Stevens' Pharmacy, corner Main and Milwaukee streets.

HOME HINTS.

Japanese Effects in Household Decoration—Artificial Blossoms.

How many of us, on seeing an orchard in full, luxuriant bloom, have wished that it were possible to keep some of the blossoming boughs as a permanent possession, beautifying the home and keeping up a perpetual season of spring? The Japanese, who are particularly fond of fruit blossoms as a decorative factor, have been inspired by this desire to the creation of really astonishingly good imitations of the flowering branches in wood and paper. It is but a comparatively short time ago that these artificial boughs made their appearance in this country, but now they may be found in almost all the large establishments devoted to the importation of oriental goods. The apple, cherry, pear or plum branches are of a natural size and shape, and the flowers thereon are most carefully imitated from nature. One branch is all that is required for a large jar, according to the Japanese idea, which reckons simplicity among the fine arts, and the decorative sense is universally admitted to have reached its highest development in Japan, in the broad sense of the term.

However, we need not go to the Japanese for another very effective branch decoration.

BODICE.

tion, which will last indefinitely. Boughs of pussy willows, if kept dry and not shaken nor handled, will preserve the appearance of freshness for a year. They must not be placed in water after being cut, but must be arranged in the jar they are to occupy and left there to dry, a process which makes no visible alteration in them. The ordinary pussy willow is sufficiently pretty, but there is an extraordinary kind, unusually large and fluffy, which is to be obtained at the florists' in the proper season, which is especially effective.

A sketch is given of a bodice of olive green satin merveilleux having dark green velvet spots. The back is slightly gathered at the waist under a swiss corselet of plain green satin, which forms a pointed belt in front. The front of the bodice is draped with steel buttons and opens over a plastron covered with applications of guipure. Steel buttons ornament the draped revers and fasten the drapery at the top of the close sleeves. The neck ruche is of cream silk gauze.

VARIOUS NOTES.

Veiling and Spangled Tulle of All Colors For Hat Trimming.

Flowers are used in millinery with the utmost profusion, large ones being employed in a detached way while small ones are bunched together in close masses. Some hats are really covered with flowers, while many small toques and bonnets are entirely composed of them. Flowers are placed under the brim of hats, in front, at the side and at the back; they loop the brim or are arranged above it; they surround or cover the crown, and they stand up in aigret form. Veiling, open and spotted with chenille dots, is largely used for hats, being gathered very full and formed into thick ruffles and puffs. Of course a great deal is required for a hat, as it is so thin. All colors are employed, violet, green and blue having the preference perhaps.

Spangled tulle in various tints is much liked as a trimming. Where it is applied flat it should be placed over satin rather than dull finished silk, as the gloss of the satin counteracts the dimming quality of the tulle and shows off the beads and spangles to greater advantage.

In making up any silk garment the iron should not be applied flat upon the silk,

SUMMER TOILET

as it leaves a glossy mark on the right side which cannot be effaced. The seams alone should be pressed, a seam board or the rounded edge of the ironing board being employed. Pressing the silk all over also takes away its natural spring and stiffness and leaves it looking old and characterless.

A picture is given of a costume of finely striped taffeta in a pale and a medium tone of violet. The skirt opens at the side over a pointed panel of white lace upon violet silk. The edges of the opening are bordered with a spangled embroidery in many tones of purple. The bodice has a double bolero, the lower of silk, with revers adorned with gold buttons, the upper of Richelieu lace. The chemise is full and is of gauze embroidered with violet over white silk. The collar and belt are of dark violet satin.

A PEOPLE OF FEW WORDS.

"Let your speech be yea, yea, and nay, nay," says the Good Book, "for whosoever is more than these cometh of evil." The Shakers abide by the spirit of this rule. Their words are few, simple, sincere and direct. They waste no energy in idle talk; they use it in thinking and doing. And whatever they do they do with their might. They are content with nothing short of the essence and principle of the things they investigate. They take pains and are patient. And thus the doors of many strange truths open to them. In this way they discovered what may almost be called the unity of diseases. A venerable Shaker says of it: "It is said that one man's meat is another man's poison. That is but half the truth. Any man's meat is any man's poison, under certain conditions. If the grain never got further than the hopper we should never have bread; and if bread never got further than the stomach we should never have strength. When the stomach is torpid, helpless and inflamed the food lies in it and rots. This fermentation produces poisons which may, and often do, disorder every other organ and function of the body. This is indigestion or dyspepsia, with many symptoms and disguises. Cure it and you cure nine-tenths of your complaints." These words were uttered many years ago. Since then they have found a remedy, now known as the Shaker Digestive Cordial. It is made from medicinal plants cultivated by them. It is a food and digests other foods. Taken while eating it rests the stomach and nourishes the system. The pain and distresses of dyspepsia disappear before it. It prevents fermentation and soon restores full power to the digestion. It succeeds in the worst cases. It is worthy the name of the people whose name it bears. Any druggist will sell you a trial bottle for ten cents.
